41/41/0 ms

Timeline diagram showing the execution of the first iteration of the loop. The timeline spans from 0ms to 100ms. At 40ms, the 'for' loop condition is checked and found to be true. At 75ms, the 'while' loop condition is checked and found to be true. The loop body is executed between 75ms and 80ms, where the 'while' loop condition is checked and found to be false, leading to the end of the iteration.
